
EDUCATION

Honours Bachelor of Science

Mathematics/ Computer Science, University of Toronto

2011 - 2017

- Advanced web and software development experience
- Extended group project and team setting experience

RECENT PROJECTS

- Completed an independent study supervised by Professor Daniel Zingaro, where we are re-implementing the current Teaching Assistant's application web page/ software for the University of Toronto Computer Science Department. This project requires constant, thorough communication with a project partner and supervisor. Consistent use of version control such as Github was also an necessity. Javascript, JQuery, Ajax, JSON, HTML, PHP, MYSQL, and CSS were all incorporated into the design. Good communication with clients, and time management was essential.

- Cloned the current "Yik-Yak" (<https://www.yikyak.com/home>) application for CSC 309 course with Professor Arnold Rosenbloom. Application incorporates Restful API, Google Location API, Javascript, JQuery, Ajax, CSS, HTML, PHP and SQL. Also utilizes media queries to be compatible with desktop, tablet and mobile devices with a responsive front end design.
